

Advanced Course in Haemostasis & Thrombosis

Belgrade, Serbia
November 7-9, 2012

Programme

Chairs: D. Mikovic, F. Peyvandi, F.R. Rosendaal

Wednesday 7th November

10.00-13.00 *Participants Registration*

Session 1: PLATELETS

Invited Lectures

13.00-14.00	Platelet pathophysiology	M. Berndt (Dublin)
14.00-15.00	Diagnosis and treatment of platelet disorders	M. Berndt (Dublin)
15.00-16.00	Current concept of the coagulation system	T. Hackeng (Maastricht)

16.00-16.30 *Coffee Break*

Interactive Session: Case Reports

16.30-17.00	Aortic valve replacement in a patient with Hermansky Pudlak syndrome	M. Berndt (Dublin)
17.00-17.30	Heparin induced thrombocytopenia confirmed by HIMEA assay: case report	Lj. Jovanovic (Belgrade)
17.30-18.00	Resistance on standard antiplatelet drugs diagnosed by multiplate aggregometry assay: examples from clinical practice	I. Zivkovic (Belgrade)
18.00-18.30	Obstetric and gynaecological intervention in Bernard-Soulier syndrome: case reports	M. Mitrovic (Belgrade)

19.00-22.00 *Opening and Welcome Cocktail*

Thursday 8th November

Session 2: COAGULATION - HAEMORRHAGE

Invited Lectures

08.30-09.30	Global haemostasis assays	T. Hackeng (Maastricht)
09.30-10.30	Challenges in the diagnosis and therapy of haemophilia	F. Peyvandi (Milan)

10.30-11.00 *Coffee Break*

Interactive Session: Clinical Research Reports

11.00-11.30	Fibrinolytic mechanism disorders in patients with venous thrombosis	B. Vuckovic (Novi Sad)
11.30-12.00	Increase levels of blood soluble CD40L and HS-CR after abrupt cessation of clopidogrel therapy correlates on the main parameters of metabolic syndrome	S. Obradovic (Belgrade)
12.00-12.30	Comparison of two laboratory assays in monitoring efficacy of different prophylaxis regimens for severe haemophilia	I. Djunic (Belgrade)
12.30-13.00	The complex genotype/phenotype puzzle in thrombophilia: could somatic mosaicism be one of the missing pieces?	I. Pruner (Belgrade)

13.00-14.00 *Lunch*

Invited Lectures

14.00-15.00	Diagnosis and classification of von Willebrand disease	J. Eikenboom (Leiden)
15.00-16.00	Treatment of von Willebrand disease	J. Eikenboom (Leiden)
16.00-17.00	How to approach a patient with bleeding	D. Mikovic (Belgrade)

17.00-17.30 *Coffee Break*

Interactive Session: Case Reports

17.30-18.00	FX deficiency	F. Peyvandi (Milan)
18.00-18.30	Distinction between acquired and congenital bleeding disorders may be ambiguous	J. Eikenboom (Leiden)
18.30-19.00	Rotation thromboelastometry in goal-directed treatment of bleeding: case reports	T. Kocica (Belgrade)
19.00-19.30	Life-threatening hematoma after teeth extraction in patient with hemophilia A and inhibitors	D. Draskovic (Nis)

20.30-00.00 *Farewell Dinner*

Friday 9th November

Session 3: COAGULATION - THROMBOSIS

Invited Lectures

08.30-09.30	Risk factors for venous thrombosis (first episode and recurrence)	F.R. Rosendaal (Leiden)
09.30-10.30	Prevention and treatment of venous thrombosis	T. Baglin (Cambridge)

10.30-11.00 *Coffee Break*

11.00-12.00	New anticoagulant drugs for venous and arterial thrombosis	T. Baglin (Cambridge)
12.00-13.00	How to approach a patient with thrombosis	P. Miljic (Belgrade)

13.00-14.00 *Lunch*

Interactive Session: Case Reports

14.00-14.30	Testing for thrombophilia: who dunnit?	F.R. Rosendaal (Leiden)
14.30-15.00	L-Asparaginase induced partial sagittal sinus thrombosis in a child with acute lymphoblastic leukemia and congenital stenosis of sagittal sinus	M. Jovic (Belgrade)
15.00-15.30	Myocardial infarction in two young women with prothrombin G20210A mutation. Cause or coincidence? Influence on treatment of infarction	J. Bodrozic (Belgrade)
15.30-16.00	Symmetric peripheral gangrene—a rare complication of septic shock: case report	B. Sekulic (Novi Sad)

16.00-17.00	<i>Course Evaluation and Farewell</i>	D. Mikovic (Belgrade) F. Peyvandi (Milan) F.R. Rosendaal (Leiden)
